

This is Mrs. Vichi, your friendly fifth grade teacher here at St. Isidore Catholic School. I am so pleased to be a part of this great establishment. My background includes years of teaching in three states, working in grades 3-10. My favorite of all is fifth grade. I love the curriculum and the energy of the students. My background is definitely in Catholic education. St. Lawrence Martyr Elementary School in Torrance, Bishop Montgomery High School in Torrance, St Joseph's College in NM and Holy Names University in Oakland (for my Masters) are all schools I call home. I still continue to take courses which would qualify me as a life- long learner!

My classroom is student centered. My central slogan is in the front of the room. It states, "Learning Is Fun." Academic material is important and personal relationships share that importance. In fifth grade the goals and expectations are high and definitely attainable. We function as a team with lots of team spirit. It is with great pleasure I welcome you to the new school year ☺
